

Job description

Company Description

Atma Malik Institute of Technology and Research is a distinguished academic institution with over 25 years of experience in providing top-quality engineering education. Affiliated with the University of Mumbai, the institute is committed to fostering innovation through state-of-the-art facilities and practical learning. It is recognized for cultivating excellence in education and developing the skills of future engineers. The institute offers a dynamic learning environment that encourages creativity, collaboration, and professional growth.

Role Description

This is a full-time on-site role for an Assistant Professor in Civil Engineering, located in Mumbai. The Assistant Professor will be responsible for delivering lectures, conducting practical sessions, and guiding students in their academic and research work. Additional responsibilities include curriculum development, evaluating student performance, mentoring students, and contributing to departmental and institutional activities. The candidate will also be expected to participate in academic research and stay updated on advancements in civil engineering.

Qualifications

- Strong knowledge in core Civil Engineering subjects, including but not limited to Structural Engineering, Geotechnical Engineering, and Environmental Engineering.
- Experience in Curriculum Development and Academic Research, with the ability to supervise student projects effectively.
- Proficiency in technical skills such as AutoCAD, STAAD Pro, or other relevant design and analytical software platforms.
- Excellent Communication, Presentation, and Mentorship skills.
- Master's degree or Ph.D. in Civil Engineering or a related field, as per AICTE/UGC regulations.
- Strong interpersonal skills and ability to contribute to a collaborative academic environment.
- Prior teaching experience and a proven track record in academic research are highly desirable.
