Department of Computer Engineering

Teachers Use ICT Enabled Tools for Effective Teaching-Learning Process

AMRIT promotes the effective use of Information and Communication Technology (ICT) to enhance the teaching-learning process. The institute provides ICT infrastructure including high-speed internet connectivity, LCD projectors, smart boards, desktops, laptops, printers, scanners, and digitally equipped seminar halls. Faculty members extensively use PowerPoint presentations, multimedia content, and smart boards for effective classroom delivery.

Online platforms such as Google Classroom, Google Meet, Zoom, and Microsoft Teams are utilized for content sharing, assignments, online interactions, and academic activities. The auditorium and seminar halls are equipped with projectors, audio-visual facilities, cameras, microphones, and internet-enabled systems for conducting guest lectures, seminars, workshops, and competitions.

The central library provides access to digital learning resources through LMS software, DELNET, Springer e-resources, and the National Digital Library of India (NDLI). Faculty members also utilize IIT Bombay Virtual Labs and software tools such as MATLAB/SIMULINK, SolidWorks, CATIA, MultiSim, Packet Tracer, Python, Java, and AutoCAD for practical and simulation-based learning.

Faculty and students actively participate in MOOC platforms such as SWAYAM, NPTEL, and Coursera, thereby promoting self-learning, skill enhancement, and technology-enabled education.
